

ISRAEL JAMES S. AGAPAY

BSIT Graduate | Aspiring Frontend Developer

Hagonoy, Bulacan Philippines | 09207615416 | israelagapay@gmail.com

| Website Portfolio: <https://israel-james-portfolio.vercel.app/>

OBJECTIVE

BSIT graduate with experience in React, TypeScript, and Android development through academic and internship projects. Eager to apply technical skills, learn continuously, and contribute to organizational success.

EXPERIENCE

Xentra Infotech Solution, Inc

2025–2026

Frontend Developer

Xentra T, Blas Ople Diversion Rd, Bulihan, Malolos, 3000 Bulacan

- Enhanced an Android-based business monitoring application using React and TypeScript, integrating APIs, implementing new features, and resolving system bugs to improve application performance and streamline company deal tracking.
- Maintained and improved an Android-based business monitoring application using React and TypeScript, supporting company operations through API handling, feature enhancements, and bug resolution that improved system reliability and user experience.

PROJECTS

Sports Equipment Inventory

2024–2025

Frontend Developer

- Implemented an Android-based sports equipment inventory application using Java and Android Studio, improving inventory management through equipment tracking, borrowing, return features, and a JSON-based data system.

The Lost Horizons: The Treasure Awaits – 3d Mobile Application

2025–2026

Fullstack Developer

- Engineered a 3D mobile adventure game in Unity using C#, integrating exploration, combat, puzzles, dynamic AI, and JSON-based save/load system to deliver immersive gameplay and player progress tracking throughout Alex's journey.

Olilit Funding Android App

2025–2026

Fullstack Developer

- Developed a full-stack Android funding application with a teammate using React, TypeScript, JSON, and MongoDB, converting Figma-based UI designs into responsive features that enhanced company data tracking and application usability.
