SUMMARY

Motivated BSIT student specializing in Web and Mobile Development, with experience in building responsive websites and mobile applications. Focused on creating clean, user-friendly, and practical digital solutions. Ready to contribute value to real-world projects while learning from industry professionals.

PROJECT EXPERIENCE

Buzzease – Online Bus Booking & Ticketing Website

- Developed a responsive bus-booking website using HTML, CSS, Bootstrap, and JavaScript, allowing users to reserve trips and automatically generate digital tickets for easy and efficient travel management.

Apex Autos – E-Commerce Website

- Created a car-selling e-commerce website with search filters, vehicle listings, and clean UI. Used HTML, CSS, Bootstrap, JavaScript, and XAMPP for local database management.

Sports Equipment Inventory

- Developed an Android app in Android Studio using Java, featuring equipment tracking, borrowing, and returns. Implemented a JSON-based data system to manage inventory records efficiently.

The Lost Horizons: The Treasure Awaits – 3d Mobile Application

- Developed a 3D mobile game in Unity using C#, featuring exploration, puzzles, combat, and dynamic AI. Added a JSON-based save/load system to track player progress throughout Alex's adventure.
